

# Journey to Self Publishing

## 12 steps to successfully publish your book

Companion handout for the CD, Journey to Self Publishing (available at [journeytoselfpublishing.com](http://journeytoselfpublishing.com)):

Many people have dreams of writing a book, but consider it an overwhelming or even impossible task. The publishing world is more accessible than ever to aspiring authors, but long-held hopes are quickly buried during the process of trying to dig through the plethora of options available. In this candid interview, author and publisher Natalie Wickham discusses the three types of publishing, gives an overview of the four critical components of a book, and lays out 12 steps that will help you navigate the path toward successfully publishing your book.

Natalie Wickham is the author of the book, ***Pajama School – stories from the life of a homeschool graduate***. When she began her foray into the world of publishing, she launched the blog [journeytoselfpublishing.com](http://journeytoselfpublishing.com) to organize her research and provide helpful information and resources for others interested in self-publishing. Since that time, Natalie has counseled numerous others in their writing and publishing endeavors and helped them avoid pitfalls that often attend first-time publishers. She is passionate about helping others achieve success in life and enjoys presenting educational workshops for a variety of organizations and individuals.
